EDUCATION

**BSc Information Technology**  
North-West University, Vanderbijlpark  
*Current*

**National Senior Certificate (Matric)**  
Lethulwazi Comprehensive School  
2018 - 2022

TECHNICAL SKILLS

- Python
- C#
- C++
- Java
- Systems Analysis & Design
- Information Security
- Decision Support Systems
- Microsoft 365 / Office Suite
- Computer Networking
- Artificial Intelligence
- Data Structures

CORE STRENGTHS

- Communication
- Problem Solving
- Critical Thinking
- Multitasking & Prioritisation
- Attention to Detail

LANGUAGES

English — Fluent  
Zulu — Fluent  
Sotho — Fluent

KHOTSO KENNETH KHANYE

ASPIRING BUSINESS ANALYST & FRONT-END DEVELOPER

PROFILE

I am Khotso Kenneth Khanye, a Final Year student at the North-West University Vanderbijlpark Campus studying **BSc Information Technology**. I am passionate about leveraging data to drive meaningful insights and business decisions. With a strong interest in **Data Science, Business Analysis, Data Analytics, and Front-End Development**, I am pursuing opportunities that allow me to apply analytical thinking, problem-solving, and data-driven strategies to real-world challenges. My goal is to contribute to organizations by transforming complex data into actionable solutions that enhance efficiency, innovation, and growth, while also building intuitive and user-friendly front-end applications that bridge the gap between data and decision-making.

WORK EXPERIENCE

Mathematics Tutor | Giant Minds Academy

- Tutored Grade 10 and Grade 11 learners in Mathematics while completing Matric, balancing tutoring responsibilities with my own Grade 12 studies.
- Broke down complex mathematical concepts into clear, step-by-step explanations tailored to each learner's pace and understanding.
- Developed strong communication, patience, and time-management skills through consistent, structured tutoring sessions.

ACADEMIC PROJECTS & COURSEWORK

- Applied C#, C++, Python and Java fundamentals across coursework projects covering data structures, algorithms and object-oriented design.
- Studied Systems Analysis & Design methodologies for planning and modelling information systems from requirements through to implementation.
- Explored Information Security principles, including core concepts of data protection and secure system design.
- Built foundational knowledge of Decision Support Systems and how data-driven tools inform business decision-making.

PROJECTS

Weather Dashboard

A weather dashboard that fetches live forecasts by city using a public weather API, with a clean, responsive UI.

Interactive Quiz App

The Quiz App is a responsive web application that challenges users with multiple-choice questions and tracks their scores in real time. It highlights front-end skills like DOM manipulation, event handling, and dynamic UI updates.
